SOFT SKILLS

- Project Management
- Teamwork
- Proactive
- Time Management
- Willing to learn

TECHNICAL SKILLS

- Programming Languages:**
 - Python, C, SQL, HTML, CSS, React, JavaScript
- Parallel & HPC:**
 - MPI, OpenMP, OpenACC, CUDA
- Data Science & Analysis:**
 - R, SageMath, Tableau
- Graph & Network Analysis:**
 - Gephi, NetworkX, Neo4j
- DevOps:**
 - Linux, MacOS, Git, Docker, Kubernetes, Terraform, OpenSSL
- Databases:**
 - Oracle, PostgreSQL, MongoDB, Redis, Neo4j
- Cloud Platforms & Big Data:**
 - AWS, Azure, Apache Spark

VOLUNTEERING

- [Uniraid 2025](#)
- Member of Supportive Engineers (local association in Catalonia)

GRAU CLADERA SENSAT

DATA ENGINEER - Willing to work on business solutions

PROFILE

I am a fourth-year **Data Engineering student** at UAB, Barcelona, with knowledge about **algorithm optimization**, **databases**, genetic algorithms, **cloud infrastructure (AWS, Azure)** and **machine learning models**. In parallel, I am **pursuing a BBA**, bringing me the ability to **translate technology into business impact**.

EDUCATION

Sorbonne Paris - Erasmus	2025 -JANUARY 26
Master in Informatics	
Universitat Autònoma de Barcelona	2022-2026
<u>Data Engineer</u>	
Universitat Oberta de Catalunya	2023-2030
<u>Bussiness administration</u>	
Teresianas Ganduxer	2020-2022
Bachibac - Bachibac is a bilingual education program that allows students to earn both the <i>Spanish Bachillerato</i> and the <i>French Baccalauréat</i> .	

EXPERIENCE

Wordline - Department of IT - Fullstack developper 05/2025-09/2025
Developed frontend and backend solutions, maintaining database integrity and supporting full-stack web applications.

PROJECTS

- Machine Learning Cervix Cancer detector**
 - Implementation of various classifiers, training processes and image processing algorithms.
- Dynamic Pricing with Generative Algorithm**
 - Defining price depending on demand, availability and price of similar products.
- Image Colorization with Neuronal Networks**
 - Use of various architectures like VAE, GAN, AE or Unet.
- Relational and non relational database schema design**
 - Focus on optimizing performance of demanded queries.
- AWS Project - Business Case for Cloud Infrastructure Design**
